#### ITEM NO. 5:

The Company was incorporated under the Companies Act, 1956 and the Articles of Association was amended on February 01, 2010 as per Companies Act, 1956.

Further In compliance with SEBI (Issue and Listing of Non-Convertible securities) (Amendment) Regulations, 2023, published on February 2, 2023, in the regulation 18, after sub regulation (6) and before sub regulation (7), the following sub regulation (6A) shall be inserted:

"(6A) The trust deed shall contain a provision, mandating the issuer to appoint the person nominated by the debenture trustee(s) in terms of clause (e) of sub regulation (1) of regulation 15 of the Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993, as a director on its Board of Directors at the earliest and not later than one month from the date of receipt of nomination from the debenture trustee(s):

Further in regulation 23, after sub regulation (5), the following sub regulation (6) shall be inserted, namely

"(6) If an issuer is a company, it shall ensure that its Articles of Association require its Board of Directors to appoint the person nominated by the debenture trustee(s) in terms of clause (e) of sub regulation (1) of regulation 15 of the Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993 as a director on its Board of Directors. Provided that the issuer whose debt securities are listed as on the date of publication of the Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) (Amendment) Regulations, 2023 in the official gazette, shall amend its Articles of Association to comply with this provision, on or before September 30, 2023."

The Company had issued 6,500 (Six Thousand Five Thousand only) Rated, taxable, Listed, Redeemable, Non-Convertible Debentures (NCDs) of ₹ 10,00,000 (Rupees Ten Lakhs Only) each, aggregating to ₹ 650,00,00,000/-(Indian Rupees Six Hundred Fifty Crore Only) on a Private Placement basis on July 27, 2010.

In view of the above, debenture trustee i.e. Axis Trusteeship Limited and the Debenture Holders shall have the right to appoint a nominee director as per the SEBI (Debenture Trustee) Regulations, 1993 on the Board of the Company <u>("Nominee Director")</u> in the event of:

(a) Two consecutive defaults in payment of interest to the Debenture Holder(s); or

(b) default in creation of Security for Debentures; or

(c) default in Redemption of Debentures.

The Company shall appoint the Nominee Director forthwith on receiving a nomination notice from the Debenture Trustee and not later than one month from the date of receipt of nomination from the Debenture Trustee.

The Nominee Director shall not be liable to retire by rotation nor required to hold any qualification shares. The Nominee Director shall be appointed on all key committees of the Board of Directors of the Company. The Company shall ensure that its Articles of Association require its Board of Directors to appoint the person nominated by the Debenture Trustee in terms of clause (e) of sub-regulation (1) of regulation 15 of the Securities and Exchange Board of India (Debenture Trustees) Regulations, 1993 and above clause mentioned herein, as a director on its Board of Directors.

Nomination sent by the Debenture Trustee:

- through email, shall be deemed to have been duly served on receiving a delivery notification of the email.
- (ii) by way of letter, shall be deemed to be delivered within 3 (Three)
   Business Days after it has been deposited in the post (by registered post, with acknowledgment due), postage prepaid in an envelope duly addressed to the Issuer.
- (iii) and the date of receipt by the issuer shall be construed accordingly.

Accordingly, it is required to incorporate the above changes in the present Articles of Association of the Company in compliance with SEBI (Issue and Listing of Non-Convertible securities) (Amendment) Regulations, 2023, further, in case of changing any clause in the existing Articles of Association, ROC insists/suggests to align the present Articles to the Companies Act, 2013.

None of the directors and key managerial personnel of the company and their relatives has any concern or interest, financially or otherwise in proposed resolution.

The Board recommends the **Special Resolution** at Item No. 5 for approval of the members

# STATE OF COMPANY'S AFFAIRS AND FUTURE OUTLOOK

The Company was incorporated as a Special Purpose Vehicle (SPV) on October 18, 2005 to develop and maintain the 102 kms stretch on National Highway 7 connecting Adloor Yellareddy and Gundla Pochanpalli in the then state of Andhra Pradesh (currently State of Telangana). The concession was awarded by National Highways Authority of India (NHA) on Build, Operate and Transfer (BOT) Annuity Basis to the consortium based on its lowest annuity quote of ₹108.36 Crore (payable semi-annually). GPEL has entered into a Concession Agreement (CA) with NHAI on March 31, 2006 for the project. The project achieved Commercial Operations Date (COD) on March 26, 2009. GPEL received its first annuity from NHAI in September 2009.

Your Company has entered into 15<sup>th</sup> year of commercial operations. The riding quality is appreciable and within limit specified under the Concession Agreement. Greenery is well maintained across the project. Two improvement works i.e. Construction of ROB and Construction of Vehicular underpass has been taken up by the Company under Change of Scope as required by NHAI. Vehicular underpass has been completed and ROB work is in progress. This will enhance the safety of road users.

Continuous efforts are being put in to enhance the safety of road users by involving various stake holders. The Company has achieved 100 % Lane Availability and the operations of the Company were satisfactory. Also, various Corporate Social Responsibility activities have been organized in association with GMRVF to benefit the people.

The Board of Director based upon the recommendation of Audit Committee in their meeting held on July 24, 2023 and subject to approval of shareholder in ensuing Annual General Meeting had re-appointed M/s. Chaturvedi & Shah LLP, Chartered Accountants, (Regn. No. 101720W) for a further period of 5 years commencing from conclusion of ensuing AGM till conclusion of 23rd AGM.

#### **Qualification / Reservation/ Adverse Remark or Disclaimer in the Auditors' Report**

The Auditors Report does not contain any Qualification/Reservation/Adverse Remark, however certain matters were emphasized by the Statutory Auditors in their report which along with Management Response are given below:

#### Emphasis of Matter

a. We draw attention to Note No. 32 to the accompanying standalone financial statements, with regard to non-giving effect to the order of the Honorable High Court of Delhi dated April 06, 2022 by upholding Company's contentions, with regard to applicability of overlay work only on increase in roughness index of roads, pending finality. We are informed that the National Highways Authority of India (NHAI) challenged the order in the appellate court, in view of the matter being sub-judice and pending finality and clarity the Company has not given financial effect to the impact of the order.

# Explanation given by the Management:

### Note No. 32:

The Company had received a penalty notice from National Highways Authority of India (NHAI) levying a penalty of ₹ 1,031.00 Lakhs for delay in completion of First Periodic Maintenance of the Project, which was subsequently enhanced by CAG to ₹ 2,344.00 Lakhs. NHAI had subsequently deducted ₹ 1,078.62 Lakhs as penalty and damages while releasing 18<sup>th</sup> Annuity in March 2018 and from 22<sup>nd</sup> Annuity an amount of ₹ 1,430.48 Lakhs with further deduction of an amount of ₹ 197.90 Lakhs from 25<sup>th</sup> Annuity towards non-fulfilment of O&M Obligations and non-curing of deficiencies in the time specified in Service Concession Agreement (CA) which is considered recoverable in the opinion of the management.

The Company had invoked Arbitration proceedings against NHAI in respect of the dispute on applicability of carrying out periodic maintenance (overlay work) of the road project once in every five years in the Concession Agreement. On January 14, 2020, the Hon'ble Tribunal had pronounced the award wherein it had not agreed with the contention of the Company that overlay is to be carried out as and when the roughness index exceeds 2000 mm/km and had held that the Company has to carry out overlay irrespective of the condition of the road. In view of the finding, the Tribunal had directed the Company to commence second overlay work with effect from April 01, 2020 and complete by December 31, 2020 and also complete the third overlay work by April 01, 2025. The NHAI had challenged the award before the Hon'ble High Court of Delhi with regard to extending the timeline to commence and complete the second overlay work and third overlay work stating that such concession is not in accordance with Concession Agreement.

The Arbitral Tribunal had further directed NHAI to refund the amount of ₹ 1,078.62 Lakhs which was wrongly deducted from the annuity along with interest @12% p.a. from the date of deduction. The Arbitral Tribunal had also directed NHAI to pay ₹ 30.00 Lakhs towards costs of litigation and the entire amount of fee paid to the Arbitrators by the Company on behalf of NHAI. NHAI had challenged the award with regard to directions for refund of amount before the Hon'ble High Court of Delhi.

Aggrieved by the findings of the Tribunal, to the limited issue of requirement of overlay upon every 5 years, the Company had filed an application under Section 34 of the Arbitration and Conciliation Act, 1996 before Hon'ble High Court of Delhi by challenging the award to the extent of wrong interpretation of clause 4.3.1 of schedule "I" to CA and rejection of claims for reimbursement of cost of overlay incurred by the company which under given circumstance was not required pending disposal of appeal.

The Hon'ble Delhi High Court vide its order dated April 06, 2022 had upheld the Company's contentions and held that the overlay is to be carried out as and when the roughness index

exceeds 2000 mm/km and rejected the arbitration order which had held that the Company has to carry out overlay irrespective of the condition of the road every five years. It has further upheld the Company's claim in respect of the cost incurred on the first major maintenance and directed that the quantification of the claim to be done by the arbitrator appointed by it. The awards of tribunal on other matters favourable to the Company was further upheld by the High Court.

NHAI has filed an appeal under section 37(1)(c) of the Arbitration and Conciliation Act, 1996 against the order of Single Judge of Hon'ble Delhi High Court before the Division bench of Hon'ble Delhi High Court and Court has directed on July 11, 2022 to maintain status guo of arbitration proceeding i.e. no stay on judgement and the matter has not yet attained finality. The implication of the favourable order to the Company would have affected the carrying value of Service Concession Receivables by reduction of outflows on overlay cost which would have resulted in significant modification gain to the Company on reversal of those provisions. In view of NHAI's petition before the division bench of Hon'ble Delhi High Court against the order of single judge of Hon'ble Delhi High Court, the matter being sub-judice and pending finality and clarity, the Company has not affected the impact of the order in the financial asset pertaining to the service concession agreement and has carried the provision for overlay cost in the books considering that there would be outflows with regard to the second and third major maintenance (overlay work) for arriving at the financial income and modification gains and has not reversed the provisions done for overlay works. The impact of the modification gain and reversal of provision for overlay cost if any, would be given effect on finality of NHAI's petition before the division bench of Hon'ble Delhi High Court.

#### **Secretarial Auditors**

Pursuant to the provisions of Section 204 of the Companies Act, 2013 and the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, the Company had appointed M/s. # Particulars of Conservation of Energy, Technology Absorption and Foreign Exchange Earnings & Outgo

#### (A) Conservation of Energy:

#### (i) The steps taken or impact on conservation of energy:

The Company has implemented various power conservation measures at project site and ensures that these measures function effectively and continuously. These measures include installation of Automatic power factor controller, Timers and Servo Stabilizers.

Additional charges were levied by the electricity board when the power factor falls below 0.90. The Automatic power factor controller helps to maintain the power factor at 0.95 and above. Further, there were power fluctuations at many of the connections and were causing damages to the lighting fixtures and equipment. The servo stabilizers were installed to stabilize the power and save the loss due to damage of fixtures and equipment. Due to the automatic timers, the glowing duration of the highway lights are being optimized.

#### (ii) The steps taken by the Company for utilising alternate sources of energy:

For Utilizing alternate sources of energy - solar lights have been installed at various locations on the Expressway. Solar LED lights were installed at selected locations in the project such as, truck lay byes and at junctions. The solar lights fixed with timers are functioning effectively and considerably, adding to the power conservation and savings.

#### (iii) Installation of LED lights:

The Company has replaced all existing conventional highway lights (Sodium Vapor Lamps) by using LED retrofit lights. Retrofitting without investment helps in saving energy at a very nominal price as compared to complete replacement of HPSV unit with new LED unit, at the same time is Environmental friendly.

#### (iii) The Capital Investment on energy conservation Equipments - NIL

#### (B) Technology Absorption:

(i) GSM Sim based Connectivity: Company has proposed to adopt wireless connectivity for the HTMS – ECBs (Highway Traffic Management System – Emergency Call boxes). Previously these were connected through optical fiber. However due to repeat fiber cuts due to works by various Government departments, the functionality of these equipment was affected. Hence, GSM based sim-card technology connectivity is implemented.

(ii) KentCam: Kentcam is a monitoring system with camera. This is fixed in Route Patrolling vehicle and the highway can be remotely accessed and monitored through mobile apart from the Route Patrol team.

(iii) the benefits derived like product improvement, cost reduction, product development or import substitution:

(iv) in case of imported technology (imported during the last three years reckoned from the beginning of the financial year):

(a) the details of technology imported: Nil

(b) the year of import: Nil

(c) whether the technology been fully absorbed: Nil

(d) if not fully absorbed, areas where absorption has not taken place, and the reasons thereof: Nil

(iv) the expenditure incurred on Research and Development: Nil

# (C) Foreign exchange earnings and Outgo:

The Foreign Exchange earned in terms of actual inflows during the year and the Foreign Exchange outgo during the year in terms of actual outflows - NIL

# Corporate Social Responsibility (CSR) Policy of GMR Pochanpalli Expressways Limited (GPEL)

#### PREAMBLE

The Ministry of Corporate Affairs has enacted the Companies Act, 2013 replacing the old law, the Companies Act, 1956, regulating the Companies in India.

As per Section 135 of the Companies Act, 2013 (Act) read with the Companies (Corporate Social Responsibility) Rules, 2014 (CSR Rules), every Company having net worth of Rs. 500 Crore or more or turnover of Rs. 1,000 Crore or more or a Net Profit of Rs. 5 Crore or more during the immediately preceding Financial Year shall constitute a Corporate Social Responsibility Committee of the Board and shall continue to have such Committee till the time company requires to have such Committee under Section 135 of the Act read with CSR Rules or as may be decided by the Board.

The Section also requires to formulate a CSR Policy, which shall indicate the activities to be undertaken by the Companies as specified in Schedule VII of the Companies Act, 2013.

Further, the section also requires that the Board of Directors shall ensure that the company spends, in every financial year, at least 2% of the average net profits of the Company made during the three immediately preceding financial years, in pursuance of its Corporate Social Responsibility Policy.

#### INDEPENDENT AUDITOR'S REPORT

### TO THE MEMBERS OF GMR POCHANPALLI EXPRESSWAYS LIMITED

#### Report on the Audit of the Standalone Financial Statements

#### Opinion

We have audited the accompanying standalone financial statements of **GMR POCHANPALLI EXPRESSWAYS LIMITED** (the "Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and notes to the standalone financial statements including a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023 and its profit, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

#### **Emphasis of Matters**

We draw attention to Note no. 32 to the accompanying standalone financial statements with regard to nongiving effect to the order of the Honourable High Court of Delhi dated April 06, 2022 by upholding Company's contentions, with regard to applicability of overlay work only on increase in roughness index of roads, pending finality. We are informed that the National Highways Authority of India (NHAI) has already challenged the order in the appellate Court, in view of the matter being sub-judice and pending finality and clarity, the Company has not given financial effect to the impact of the order.

Our opinion is not modified in respect of above matter.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

#### Provision for periodic major maintenance

Provision for periodic major maintenance of project roads requires technical evaluations and critical accounting estimates and judgments.

We have obtained an assurance over the appropriateness of management's assumptions and methods applied in the calculating the provision for periodic major maintenance by carrying out the following procedures, amongst others:

- Obtained the management's calculation of the provision for periodic major maintenance of project roads which is made in accordance with technical evaluation and the Company's policy and checked the assumptions made by the management and discussed with its technical team.
- We have perused agreement entered between the parties concerned for major maintenance.
- We have also considered the appropriateness of the provision based on the Company's historical experience by evaluating the managements' assumptions against provision for periodic major maintenance of project roads with reference to historical track record.
- We have discussed with those in charged with governance and perused the legal opinion on the implications of the Order of Hon'ble High Court of Delhi on the carrying amount of provision in the books and requirements of reversals if any.
- Performed discussion with those charged with governance with regard to the significant management judgement that has been considered in assessing appropriateness and adequacy of the provision made in books in this regard.
- Ensured appropriateness of the disclosures in the standalone financial statements in accordance with the relevant requirements of Ind As.

### Information other than the standalone Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of other information. The other information comprises the information included in Board's Report including Annexures to Board's Report, but does not include the standalone financial statements and our auditor's report thereon. The report containing other information is expected to be made available to us after the date of this auditor's report.

-3-

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. When we read the report containing other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance. We have nothing to report in this regard.

#### Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the management of the Company is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management of the Company either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so...

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing (SAs) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

-4-

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for
  expressing our opinion on whether the Company has adequate internal financial controls with reference
  to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

CHATURVEDI & SHAH LLF Chartered Accountants

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

# Report on the Internal Financial Controls with reference to standalone financial statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of **GMR POCHANPALLI EXPRESSWAYS LIMITED** ("the Company") as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Standalone Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Standalone Financial Statements.

### Meaning of Internal Financial Controls with reference to standalone financial statements

A company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone financial statements.

-2-

# Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

#### Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### 1.2 Significant accounting policies

The significant accounting policies applied by the company in the preparation of its financial statements are listed below. Such accounting e policies have been applied consistently to all the periods presented in these financial statements, unless otherwise indicated.

#### Basis of preparation

The financial statements are prepared in accordance with Indian Accounting Standards (Ind AS), under the historical cost convention on the

« accrual basis except for certain financial instruments which are measured at fair values, the provisions of Companies Act, 2013 (the 'Act') (to the extent notified). The Ind AS are prescribed under section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an  $\stackrel{>}{\scriptstyle\sim}$  existing accounting standard requires a change in the accounting policy hitherto in use.

The standalone financial statements are presented in 'IndianRupees' (INR) which is also the Company's functional currency and all values are € disclosed to the nearest Rupees in Lakhs with two decimals (INR 00,000.00), except when otherwise indicated.

### Summary of significant accounting policies

#### (a) Use of estimates

- The preparation of these financial statements in conformity with the recognition and measurement principles of IND AS requires the management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts
   amount
- c of assets, liabilities and the disclosure of contingent liabilities at the end of the reporting period and revenues and expenses during the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty
- r about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets or
- c liabilities in future periods.
- « Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

#### b) Current versus non-current classification

- Assets and Liabilities in the balance sheet have been classified as either current or non-current based upon the requirements of Schedule III notified under the Companies Act, 2013.
- < An asset has been classified as current if
- (a) it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle; or (b) it is held primarily for the purpose of being traded; or
- < (c) it is expected to be realized within twelve months after the reporting date; or
- r (d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the creporting date. All other assets have been classified as non-current.

#### « A liability has been classified as current when

- $_{
  m c}$  (a) it is expected to be settled in the Company's normal operating cycle; or
- $_{\mbox{\scriptsize c}}$  (b) it is held primarily for the purpose of being traded; or
- $\epsilon$  (c) it is due to be settled within twelve months after the reporting date; or
- (d) the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting « date. All other liabilities have been classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The company has identified twelve months as its operating cycle.

# 1 Company Overview and Significant Accounting Policies:

#### (c) Fair value measurement

- c The Company measures financial instruments at fair value at each balance sheet date.
- « Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market c participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or
- transfer the liability takes place either:
- i) In the principal market for the asset or liability, or
- ii) In the absence of a principal market, in the most advantageous market for the asset or liability

(The principal or the most advantageous market must be accessible by the Company.

(The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or  $\boldsymbol{\varsigma}$  liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

5 The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure  $\langle$  fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

« All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value c hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Cevel 1 — Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

- Level 3 — Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

« For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers

Chave occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

#### d) Revenue Recognition

- Revenue from operations:
- Finance income for concession arrangements under financiaLasset and a ling recognized using the effective interest method. Revenues from operations and maintenance services and overlay services are recognized concession arrangements in each period as and when

Effective from April 01, 2018, the Company has adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-

Cup transition method, applied to the contracts that were not completed as of April 01, 2018. In accordance with the cumulative catch up

c transition method, the comparatives have not been retrospectively adjusted and continues to be reported as per Ind AS 18 "Revenue".

Revenue is measured based on the consideration that is specified in a contract with a customer or is expected to be received in exchange 6 for the products or services and excludes amounts collected on behalf of third parties. Revenue is recognized upon transfer of control of

c promised products or services to customers. To recognize revenues, the Company applies the following five step approach: (1) identify the

< contract with a customer, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the ( transaction price to the performance obligations in the contract, and (5) recognize revenues when a performance obligation is satisfied.

The revenue is recognised when (or as) the performance obligation is satisfied, which typically occurs when (or as) control over the r products or services is transferred to a customer.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract epines.

"The accounting for modifications of contracts involves assessing whether the services added to an existing contract are distinct and

whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch-up basis,

while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling < price.

< A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by</p>

r transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is

recognised for the earned consideration that is conditional. Contract assets are initially recognised as revenue earned on account of service

concession arrangements where revenue is recognised over the period of time as receipt of consideration is conditional on successful

completion of performance obligations such as periodic maintenance services under the service concession arrangements. Once the performance obligation is fulfilled, the contract assets are classified as receivable under service concession arrangements.

#### Finance income and other income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at < the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition. Interest income is included in other income in the statement of < profit and loss.</pre>

< On disposal of current investments, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss. Such income is included under the head "other income" in the statement of profit and loss.

✓ Dividend income is accounted for in the year in which the right to receive the same is established by the reporting date.

#### e) Property, Plant & Equipment...

Property, Plant & Equipment are stated at acquisition cost less accumulated depreciation and cumulative impairment. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are < met.

#### Recognition:

The cost of an item of property, plant and equipment shall be recognised as an asset if, and only if:

 $\langle$  (a) it is probable that future economic benefits associated with the item will flow to the entity; and

(b) the cost of the item can be measured reliably.

When significant parts of plant and equipment are required to be replaced at intervals, Company depreciates them separately based on < their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and Cequipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss Cas incurred.

( The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the

C recognition criteria for a provision are met. Refer significant accounting judgements, estimates and assumptions and provisions for further  $_{<}$  information about the recorded decommissioning provision.

Gains or losses arising from de-recognition of tangible assets are measured as the difference between the net disposable proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

CFurther, When each major inspection is performed, its cost is recognised in the carrying amount of the item of property, plant and

 $_{
m f}$  equipment as a replacement if the recognition criteria are satisfied.

Any remaining carrying amount of the cost of the previous inspection (as distinct from physical parts) is derecognised.

C Machinery spares which are specific to a particular item of PPE and whose use is expected to be irregular are capitalized as fixed assets.

Spare parts are capitalized when they meet the definition of PPE, i.e., when the company intends to use these during more than a period

Depreciation on PPE is provided on straight line method, up to the cost of the asset (net of residual value), in accordance with the useful lives prescribed under Schedule II to the Companies Act, 2013 which are as below:

C Plant and equipment	4-15 years
C Office equipment	5 years
Furniture and fixtures	(10 years
( Vehicles	
Computers	8-10 years
	3 years

C Depreciation on additions is being provided on a pro-rata basis from the date of such additions. Similarly, depreciation on assets r sold/disposed off during the year is being provided up to the dates on which such assets are sold/disposed off. Modification or extension to

<an existing asset, which is of capital nature and which becomes an integral part thereof is depreciated prospectively over the remaining useful life of that asset.

<sup>©</sup> The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and c adjusted prospectively, if appropriate.

# 1 Company Overview and Significant Accounting Policies:

#### f) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in an amalgamation In the nature of purchase is their fair value as at the date of amalgamation. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication

that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful

 of future economic benefits embodied in the asset are considered to modify the amortisation period commendur as appropriate, and are

treated as changes in... Haccounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

# $_{\rm C}$ g) Financial Assets - Receivable towards the concession arrangement from the grantor

< When the arrangement has a contractual right to receive cash or other financial asset from the graptic soper means the concession carrangement (in the form of grants) during the construction period or otherwise, such a right, to the extent eligible, is recorded as financial  $_{\zeta}$  asset in accordance with Ind AS 109 "Financial Instruments," at amortized cost.

#### (h) Taxes

< Tax expense comprises current and deferred tax.

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961.

< Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive

c income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are (subject to interpretation and establishes provisions where appropriate.

CDeferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their  $_{\varsigma}$  carrying amounts for financial reporting purposes at the reporting date.

C Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the cliability is settled after tax holiday period, based on tax rates (and tax laws) that have been enacted or substantively enacted at the

< Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any carry forward

c of unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which < the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.</p>

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised.

< Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that  $_{\rm f}$  future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or ( in equity).

C Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax <sup>6</sup> liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

#### < i) Borrowing costs

6 Borrowing Cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition. construction or production of an asset that necessarily takes a substantial period of time to cget ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in (the period they occur.

#### <i) Inventories

Raw materials, components, stores and spares are valued at lower of cost and net realizable value on First In First Out basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs <sup>c</sup> necessary to make the sale.

# 1 Company Overview and Significant Accounting Policies:

#### (k) Leases

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the Clease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the (arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

A lease is classified at the inception date as a finance lease or an operating lease.

#### The Company is the lessee

#### Right-of-use assets

r Till year ended March 31, 2019, assets acquired on leases where a significant portion of risk and rewards of ownership are retained by the ( lessor are classified as operating leases. Lease rental are charged to statement of profit and loss on straight-line basis except where escheduled increase in rent compensate the lessor for expected inflationary costs.

For any new contracts entered into on or after April1 2019, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'.

The Company enters into leasing arrangements for office premises. The assessment of the lease is based on several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to extend/purchase etc.

< At lease commencement date, the Company recognises a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the
 set of the lease liability.
 A set of the lease liability and the lease liability and the lease liability and the lease liability and the lease liability.
 A set of the lease liability and the lease liability and the lease liability.

 A set of the lease liability and the lease liability and the lease liability and the lease liability. Company, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of ( the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when v such indicators exist. At lease commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance (fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for « payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes insubstance fixed payments. When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset. The Company has elected to account for short-term leases using the practical expedients. Instead of recognising a right-of-use asset and lease

c liability, the payments in relation to these are recognised as an expense in statement of profit and loss on a straight-line basis over the

#### < The Company is the lessor

CLeases are classified as finance leases when substantially all of the risks and rewards of ownership transfer from the Company to the < lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance Clease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in

< Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating « leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs c incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the v lease term on the same basis as rental income.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing

There is no transitional effect on adoption of Ind AS 116 as at April 1, 2019.

#### < I) Impairment

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset's recoverable amount. An asset's recoverable « amount is the higher of an asset's or cash generating units' (CGUs) net selling price and its value in use. The recoverable amount is « determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets « or group of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is « written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value eusing a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In « determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an sappropriate valuation model is used.

The company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the

company's cash generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For longer periods, a long term growth rate is calculated and applied to project future cash flows after the < fifth year.

CIN - U45200KA2005PLC049327

# 1 Company Overview and Significant Accounting Policies:

Impairment losses of continuing operations are recognized in the statement of profit and loss, except for previously revalued tangible fixed

- assets, where the revaluation was taken to revaluation reserve. In this case, the impairment salen ecogorized in the revaluation reserve ្ត up to the amount of any previous revaluation.
- < After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.
- « An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no r longer exist or may have decreased. If such indication exists, the company estimates the asset's or CGU's recoverable amount. A previously,
- recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the assets recoverable
- amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its crecoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been

recognized for the asset in prior years. Such reversal is recognized in the statement of profit and Loss unless the asset is carried at a c revalued amount, in which case the reversal is treated as a revaluation increase.

# $_{\rm C}\,$ m) Provisions, contingent liabilities, contingent assets $\,$ and capital commitments

**Contingent Liabilities** 

- A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or
- c non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized
- e because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in
- c extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not
- recognize a contingent liability but discloses its existence in the financial statements. Contingent assets are only disclosed when it is v probable that the economic benefits will flow to the entity.

Provisions

- Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that
- < an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the
- amount of the obligation. When the Company's expects some or all of a provision to be reimbursed, for example, under an insurance
- contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating

to a provision is presented in the statement of profit and loss net of any reimbursement.

- v If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a

#### r n) Retirement and other Employee Benefits

- Short term employee benefits and defined contribution plans.
- C All employee benefits payable/available within twelve months of rendering the service are classified as short-term employee benefits.
- 3 Benefits such as salaries, wages and bonus etc., are recognised in the statement of profit and loss in the period in which the employee
- renders the related service.
- Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the
- $\tau$  contribution payable to the provident fund.
- C The Company recognizes contribution payable to the provident fund scheme as expenditure, when an employee renders the related
- c service. If the contribution payable to the scheme for service received before the reporting date exceeds the contribution already paid, the

e deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. if the contribution already paid

- exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that  $_{\rm c}\,$  the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

#### Compensated absences

saccomulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee bearefit. The company

measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has c accumulated at the reporting date.

\* The company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for

← measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit

r credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred. The

company presents the leave as a current liability in the balance sheet, to the extent it does not have an unconditional right to defer its r settlement for 12 months after the reporting date. Where company has the unconditional legal and contractual right to defer the

settlement for a period beyond 12 months, the same is presented as non-current liability.

#### VDefined benefit plans

#### Gratuity

- Prenottialy is a defined benefit scheme. The cost of providing benefits under the scheme is determined on the basis of actuarial valuation under projected unit credit (PUC) method.
- The company recognizes termination benefit as a liability and an expense when the company has a present obligation as a result of past

, event, it is probable that an outflow . of resources embodying economic benefits will be required to settle the obligation and a reliable

- estimate can be made of the amount of the obligation. If the termination benefits fall due more than 12 months after the balance sheet date, they are measured at present value of future cash flows using the discount rate determined by reference to market ' yields at the
- balance sheet date on government bonds.

#### Remeasurements

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the ret defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability),

# 1 Company Overview and Significant Accounting Policies:

### ep) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and in hand and the short-term deposits with an original maturity of

< three months or less, which are subject to an insignificant risk of changes in value. Bank Overdrafts are shown with in borrowings under

For the purpose of the statement of cashflows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of ℓ outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

#### rq) Foreign currencies

The financial statements are presented in INR, which is also the company's functional currency.

In preparing the financial statements, transactions in the currencies other than the Company's functional currency are recorded at the

rates of exchange prevailing on the date of transaction. At the end of each reporting period, monetary items denominated in the foreign currencies are re-translated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are

 denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary citems measured in terms of historical cost in a foreign currency are not retranslated.

r Exchange differences arising on the retranslation or settlement of other monetary items are included in the statement of profit and loss for

#### r) Earnings per share

Basic Earnings Per Share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating Diluted Earnings Per Share, the net profit or loss for the period attributable to equity shareholders and the veighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

### s) Corporate Social Responsibility Expenditure

The Company charges its Corporate Social Responsibility Expenditure during the year, to the Statement of Profit and Loss.

### (t) Non-current assets held for sale/ disposal

The Company classifies non-current assets as held for sale/ disposal if their carrying amounts will be recovered principally through a sale

rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the Csale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year

The criteria for held for sale classification is regarded met only when the assets or disposal group is available for immediate sale in its

r present condition, subject only to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will

genuinely be sold, not abandoned. The Company treats sale of the asset to be highly probable when:

< a) The appropriate level of management is committed to a plan to sell the asset,</p>

 $\ell$  b) An active programme to locate a buyer and complete the plan has been initiated,

C) The asset (or disposal group)is being actively marketed for sale at a price that is reasonable in relation to its current fair value,

r d) The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and

+ e) Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be

r Non-current assets held for sale are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and Iiabilities classified as held for sale are presented separately in the standalone balance sheet.

### 1.3 Key accounting judgements, estimates and assumptions

r The preparation of the company's financial statements requires management to make judgements, estimates and assumptions that affect the

reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities.

Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities

The estimate and the underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period  $\checkmark$  in which are estimate is revised and future periods affected.

Significant judgements and the estimates relating to the carrying values of assets and liabilities, provision for employee benefits and others r provisions, commitments and contingencies and fair value measurements of investments.

### i) Critical Accounting Estimates and Assumptions :

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The e Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

### 1 Company Overview and Significant Accounting Policies:

#### (a) Income tax

Significant management judgement is required to determine the amount of deferred tax that can be recognised, based upon the likely <sup>C</sup> timing and the level of future taxable profits together with future tax planning strategies considering the tax holiday period available to € infrastructure undertaking. Refer note no.20.04

### <sup>6</sup> b) Fair value measurement of financial instruments

- When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices
- C in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken < from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values.</p>
- ( Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors
- could affect the reported fair value of financial instruments. Refer note no.29 for further disclosures.

#### < c) Contingencies

- Contingent liabilities may arise from the ordinary course of business in relation to claims against the Company, including legal and
- Contractual claims. By their nature, contingencies will be resolved only when one or more uncertain future events occur or fail to occur.
- < The assessment of the existence, and potential quantum, of contingencies inherently involves the exercise of significant judgement and the
- ≪ use of estimates regarding the outcome of future events. [Refer note no.31]

### d) Defined benefit plans (gratuity benefits)

- < actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the
- < long term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each
- The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the
- management considers the interest rates of government bonds.
- < The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at the interval in

response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates in India.

#### ( ii) Significant judgements :

### c a) Provision for periodic maintenance (overlay activities)

- c As per the terms of concession agreement, the Company is required to carry out periodic major maintenance of project roads once in
- every five years which requires technical evaluation and critical assumptions, accounting estimates and judgements. The management has
   accounting estimates and judgements.
- details are given in note no.16
- (b) Expected Credit Loss on Loans:
- With respect to loans and deposits given to Group Companies, the Company has not considered any increase in credit risk, considering the r assurances through support letters given by the Holding Company to pay the amount inspite of cases of delay in payments by the Group
- Companies. The expected credit losses have not been provided other than those provided for based on its modification losses in lieu of
- CECL. The Company has also assessed the credibility of the Group Companies and that of the Holding Company and is of the view that it
- c does not expect any financial loss in respect of the said loans and deposits. Refer note no.5.

(a) Effective April 1, 2018, the Company adopted Ind AS 115 " Revenue from Contracts with Customers" using the cumulative catch-up transition method, Capplied to contracts that were not completed as of April 1, 2018. In accordance with the cumulative catch-up transition method, the comparatives have

(In the Service Concession agreement the Company has applied the guidance in Ind AS 115, by applying the revenue recognition criteria for each distinct c performance obligation. The arrangement with the grantor generally meets the criteria for considering regular maintenance and periodic maintenance r services as two distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each

performance obligation of the contract at its relative standalone price using the expected cost plus margin approach. For periodical maintenance (overlays) and related services, the performance obligations are satisfied only when the services are rendered since the customer generally obtains the c control of the work as it progresses though the company accounts for the provision for periodic maintenance as a best estimate is recognised and

 $\checkmark$  measured over the period of time in terms of Ind AS 37.

# m < b) Disaggregate revenue information for the year ended March 31, 2023 and March 31, 2022:

The Company has presented disaggregated revenue from contracts with customers (under service concession arrangements) for the year ended March 31, 2023 by offerings and is of the opinion that, this disaggregation best depicts the nature, amount, timing of revenues and cash flows that are affected

v by the industry markets and other economic factors.

The Company has not identified any disaggregated revenues based on contract types.

C) Performance obligations:

r Revenue from periodic maintenance (overlay) are recognised as per the service concession arrangements.

The performance obligation provides the aggregate amount of transaction that is pending to be performed and transaction price yet to be recognised as at end of the reporting period. The Company has applied the practical expedient as given in Ind AS 115 as the performance obligation on periodic

maintenance as a part of a concession agreement that has an original expected duration of more than one year. The aggregate value of performance

obligation that are unsatisfied as at March 31, 2023 is Rs.8,711.50 Lakhs The company will recognise revenue on completion of the performance obligation r on attaining finality of pending litigation [refer note no.32]. Pending the same the performance obligations are recognised as provisions without

corresponding recognition of revenue in terms of Ind AS 115.

### < Interest rate risk

« Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. «The Company does not have exposure to the risk of changes in market interest rates in view of the Company's long-term debt obligations with fixed

(interest rates. Borrowings at fixed rates expose the Company to fair value interest rate risk. In respect of deployment of funds by the company.af

Cloans/deposits to the related parties the interprest rate risk has been considered by the company by fixing the terms for those loans for a period not c exceeding one year which may be renewed with rates reflecting current market scenario.

( The Company analyses its interest rate exposure on a dynamic basis. The Company's policy is to manage its interest cost using only interest free/ < fixed rate debts from related parties.

### Interest rate sensitivity:

C The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected.

50 basis points represents management's assessment of reasonably possible change in interest rate. With all other variables held constant, the < Company's profit/(loss) before tax is affected through the impact interest rate of borrowings is as follows:

#### 32 Litigation

« The Company had received a penalty notice from National Highways Authority of India (NHAI) levying a penalty of Rs.1,031.00 Lakhs for delay in completion of First Periodic Maintenance of the Project which was subsequently enhanced by CAG to Rs.2,344.00 Lakhs. NHAI had subsequently deducted Ks.1,078.62 Lakhs as penalty and damages while releasing 18th Annuity in March 2018 and from 22nd Annuity an amount of Rs. 1 430.49.J akkras while < further deduction of an amount of Rs.197.90 Lakhs f from 25th Annuity towards non-fulfilment of O&M Obligations and non-curing of deficiencies in the \* time specified in Service Concession Agreement (CA) which is considered recoverable in the opinion of the management.

The Company had invoked Arbitration proceedings against NHAI in respect of the dispute on applicability of carrying out periodic maintenance (overlay (work) of the road project once in every five years in the Concession Agreement. On January 14, 2020, the Hon'ble Tribunal had pronounced the award wherein it had not agreed with the contention of the Company that overlay is to be carried out as and when the roughness index exceeds 2000 mm/km « and had held that the Company has to carry out overlay irrespective of the condition of the road. In view of the finding, the Tribunal had directed the Company to commence second overlay work with effect from April 01, 2020 and complete by December 31, 2020 and also complete the third overlay v work by April 01, 2025. The NHAI had challenged the award before the Hon'ble High Court of Delhi with regard to extending the timeline to commence and complete the second overlay work and third overlay work stating that such concession is not in accordance with Concession Agreement.

The Arbitral Tribunal had further directed NHAI to refund the amount of Rs.1,078.62 Lakhs which was wrongly deducted from the annuity along with r interest @12% p.a. from the date of deduction. The Arbitral Tribunal had also directed NHAI to pay Rs.30.00 Lakhs towards costs of litigation and the

entire amount of fee paid to the Arbitrators by the Company on behalf of NHAI. NHAI had challenged the award with regard to directions for refund of amount before the Hon'ble High Court of Delhi.

CAggrieved by the findings of the Tribunal, to the limited issue of requirement of overlay upon every 5 years, the Company had filed an application under Section 34 of the Arbitration and Conciliation Act, 1996 before Hon'ble High Court of Delhi by challenging the award to the extent of wrong interpretation of clause 4.3.1 of schedule "I" to CA and rejection of claims for reimbursement of cost of overlay incurred by the company which under given circumstance was not required pending disposal of appeal.

The Honourable Delhi High Court vide its order dated April 06, 2022 had upheld the Company's contentions and held that the overlay is to be carried out e as and when the roughness index exceeds 2000 mm/km and rejected the arbitration order which had held that the Company has to carry out overlay r irrespective of the condition of the road every five years. It has further upheld the Company's claim in respect of the cost incurred on the first major maintenance and directed that the quantification of the claim to be done by the arbitrator appointed by it. The awards of tribunal on other matters  $\boldsymbol{\gamma}$  favourable to the Company was further upheld by the High Court.

NHAI has filed an appeal under section 37(1)(c) of the Arbitration and Conciliation Act, 1996 against the order of Single Judge of Hon'ble Delhi High Court

F before the Division bench of Hon'ble Delhi High Court and Court has directed on July 11, 2022 to maintain status quo of arbitration proceeding i.e. no stay c on judgement and the matter has not yet attained finality. The Implication of the favourable order to the Company would have affected the carrying value r of Service Concession Receivables by reduction of the outflows on overlay cost which would have resulted in significant modification gain to the Company on reversal of those provisions. In view of NHAI's petition before the division bench of Hon'ble Delhi High Court against the order of single judge of Hon'ble v Delhi High Court, the matter being sub-judice and pending finality and clarity, the Company has not affected the impact of the order in the financial asset r pertaining to the service concession agreement and has carried the provision for overlay cost in the books considering that there would be outflows with r regard to the second and third major maintenance (overlay work) for arriving at the financial income and modification gains and has not reversed the e provisions done for overlay works. The impact of the modification gain and reversal of provision for overlay cost if any, would be given effect on finality of NHAI's petition before the division bench of Hon'ble Delhi High Court.

The Company had entered into concession agreement with National Highways Authority of India for rehabilitation and strengthening of existing 2-lane portion from km 367.000 (Adloor Yellareddy) to km 447.000 (Kalkallu), covering 80.745 kms, and Improvement, operation and maintenance of kms 447.000 (Kalkallu) - 464.000 (Gundla Pochanpalli) covering 17.00 kms on NH-7 in the state of Andhra Pradesh, to 4 lanes under a concession on build,

T Indian Accounting Standards (Ind AS) was made applicable to the Company from financial year (FY) 2016-17. Under Ind AS the company being an operator C under Service Concession Agreement (SCA) entitled to fixed annuity has classified Carriageways as financial assets. The company in terms of the same is apportioning proportionate amount of Annuity received by it every year to the financial assets so that at the end of concession period the assets becomes T NIL and the balance towards financing income and service revenue towards operations. The company accordingly is not charging any depreciation on carriageways as was done under IGAAP. Accordingly the proportionate amount of annuity charges to carriageways is not shown as income / revenue in the profit and loss account and similarly depreciation is not claimed as expenses as was done under IGAAP.

TAS per the provision of section 4 and 5 of the Income Tax Act, the above amount of Annuity which is not included in the profit and loss account is

A chargeable to tax under normal provision of Income Tax Act. Similarly, the company is eligible to claim expenses of periodic maintenance (overlay) and r income tax depreciation under the normal provision of Act.

The Company while Computing Book Profit in terms of Section 115 JB of Income Tax Act 1961 has offered the above amount of annuity for tax and

τ In this regard, the company had placed reliance on the rationale of introducing the MAT provisions (by way of section 80VVA of the Act), that actual

🕫 income of the company without allowing deduction under any of the listed provision has to be taxable. The management is of the opinion that adjustment c made towards SCA results in recognition of notional financial income ignoring annuity income, actual depreciation and will lead to taxability of notional

income and expenses which will defeat the purpose of introduction of the provision of MAT. As such while computing the book profit under 115JB of the

Act, the company has removed the notional adjustment as required for SCA model under IND-AS scenario and offered actual profit under MAT computed in lines with the IGAAP which it hitherto was following prior to introduction of Ind-As in FY 2016-17 in its income tax returns. The Company has been

advised that the said treatment has not been challenged by the income tax department in the assessment proceedings held during the year for the accounts of first year of adoption of Ind As and the returns have been accepted.

The Company for the purposes of preparation of financial statements for the current period and come evices year has provided for the current tax expense considering profits arrived under financial statements as the most likely amount of tax liability for the year under prudence. The provisions would be crystallized on the finalization of the income tax assessment proceedings and necessary entries would be passed.

#### ity Analysis Method

sensitivity for significant actuarial assumptions is computed by varying one actuarial assumption used for the valuation of the defined benefit c obligation by percentage, keeping all the other actuarial assumptions constant.

### Risk Faced by Company:

The Gratuity scheme is a final salary Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, Cdisability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The Plan design means the risks commonly affecting the liabilities and the financial results are expected to be:

«Interest rate risk : The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit

< Salary Inflation risk : Higher than expected increases in salary will increase the defined benefit obligation

v Demographic risk : This is the risk of variability of results due to unsystematic nature of decrements that include mortality, withdrawal, disability and «retirement. The effect of these decrements on the defined benefit obligation is not straight forward and depends upon the combination of salary « increase, discount rate and vesting criteria. It is important not to overstate withdrawals because in the financial analysis the retirement benefit of a rshort career employee typically costs less per year as compared to a long service employee.

# viii. The major category of plan assets as a percentage of the fair value of total plan assets are as follows:

< Investment with Insurer managed funds - conventional products	< March 31, 2023	March 31, 2022

The estimates of future salary increases considered in the actuarial valuation take into account inflation, seniority, promotion and other relevant ¢ factors such as supply and demand in the employment market.

r The Company expects to contribute Rs.33.76 Lakhs to the gratuity fund during FY 2023-24.

#### c) Leave Encashment

Liability towards Leave Encashment based on Actuarial valuation amounts to Rs. 96.81 Lakhs as at March 31, 2023 [March 31, 2022: Rs. 124.16
